

BIRDS

TEURLINGS EGGFOOD

Teurlings Eggfood is a food supplement for breeding and conditioning canaries, parakeets and domesticated European birds. It is a natural mix of high-quality proteins, seeds, vegetables, vitamins and minerals. It boosts the condition of adult birds and encourages the growth of young birds. The vegetables in Teurlings Eggfood promote digestion and are rich in vitamins. Teurlings Eggfood enjoys high acceptance and is particularly well received by young birds. Teurlings Eggfood contains no artificial additives and no corn flour.

Directions for use:

Prepare the required amount of Teurlings Eggfood with a few drops of water and feed a fresh portion daily. Teurlings Eggfood should amount to 1/4 of the daily food ration. During the breeding period, from the 2nd day: provide fresh eggfood 2 to 3 times a day. During the moulting period: daily.

During the resting period: twice a week.

Composition:

Bakery products, egg and egg products, seeds, cereals, sugar, vegetables, minerals and vitamins.

Average analysis:

Crude protein 16%, Crude fat 5.2%, Crude fibres 0.5%, Crude ash 5.6%, Moisture 8%.
